

Since the CLRSD is disbanding, this will be my last monthly report on the CLRSD board meetings. I'll continue to report on the Moe Township meetings until the decision is made on how & how much we'll be charged for the debt incurred by CLRSD-the Moe Township portion of the \$3.4 million being approximately \$600,000.

Because I wasn't able to attend the 5/7/09 meeting, thanks to Rod Johnson for reporting on items of relevance that follow.

They went through the resolutions and the ones that got the most attention were easements and the sewer plant property/permit.

Easements: Now 3 townships show interest in obtaining the completed easements, Moe, Leaf Valley and Miltona. Originally Miltona was the only one, but the other 2 will be added.

Plant property: The cities of Miltona and Carlos say they may be interested in the property and of course the permit comes with it. The board decided by a vote of 4-2 to give them until the first of June to provide an answer. It's my understanding the price tag on that property, if it was sold to those cities, is \$155,000, take it or leave it.

Just a note, no one from either one of those cities was present at the meeting. You would think that if they had a real interest they would have attended.

Rod
