

MOE TOWNSHIP SNOW PLOWING POLICY

Plowing shall commence at the discretion of the Primary Equipment Operator and/or the Twp. Supervisors, but not before a minimum of three (3) inches of snow accumulation has occurred. Start times may vary due to weather conditions. With afternoon and/or night time snowfalls the normal start time shall be 4:00 AM providing conditions such as low visibility (as caused by blowing & drifting snow), freezing rain fall or equipment break-downs do not exist. In such cases delays with starting will occur. In cases of a heavy snow fall of four (4) inches or more, plowing will initially be concentrated with the opening up of one lane on all roads. After all the initial opening has been completed, equipment will return to widen roadways, move recently drifted-in snow & the clean up of turn-a-rounds/cul-de-sacs.
